

Hi!

Here is a list of a few things you can do over the summer.

1. Read. This is the most important thing to do. If you read a little bit every day, you will notice the improvement when you get back to school.
2. Math Practice. Practice your math facts, pay for items at a store, use menus to buy pretend items and add up the total.
3. Writing. Keep a journal and write down events from a special day. Draw a picture and write about something fun you did.
4. Write a letter or postcard and send to Mrs. Lord.

Mrs. Dianne Lord

25 Sturbridge Road

Marlborough, CT 06447

5. Read a book, fill out a book report page.
6. Visit Marlborough School website for Cool Math games, Math Playground or other games and activities.
7. Mathmagician.com
8. Multiplication.com
